CAREER OBJECTIVE

Computer Science and Engineering student seeking opportunities to apply and strengthen technical knowledge through practical learning and software development experience.

EDUCATION

B.E. in Computer Science and Engineering — **Expected graduation: 2028**
Amruta Institute of Engineering and Management Sciences
Semester SGPA: 1st: 9.20 | 2nd: 9.80 | 3rd: 9.48 | 4th: 9.16
Class XII — Kendriya Vidyalaya Jamalpur, Munger, Bihar — **90.5%**
Class X — Kendriya Vidyalaya AFS Chunapur, Purnia, Bihar — **90.8%**

ACHIEVEMENTS

Academic Topper — 1st Place, 2nd Semester (CSE-BS), Amruta Institute of Engineering & Management Sciences, Amrutotsava-2026, academic year 2025–26.

Academic Topper — 1st Place, 3rd Semester (CSE-A), Amruta Institute of Engineering & Management Sciences, Amrutotsava-2026, academic year 2025–26.

TECHNICAL SKILLS

Programming Languages: Python, Java, C
Web Technologies: HTML, CSS
Database: SQL

PROJECTS

1. Underwater AI System

A Python-based AI system for underwater image analysis and threat detection. The model analyzes images to detect objects such as sharks and other potentially hazardous elements that may pose risks to marine life, divers, or underwater environments.

GitHub repository

2. Flask Security Project

A secure web application built with Python and Flask demonstrating user registration, login, password hashing, session management, and input validation using an SQLite database. The project focuses on improving web security and helping prevent common web application vulnerabilities.
